Helping UQ Students Choose the Right Club

A smarter way for UQ students to
compare clubs with confidence

Students
first

Transparency
information

Easy
comparison

Stronger
communities

! THE PROBLEM

From 50 student interviews across
two iterations, we found that the
biggest problem in not discovering
a club is confidently choosing one.

Club information is often vague,
outdated, or too promotional,
making it hard for students to know
what a club is really like or whether
it fits them.

OUR SOLUTION

We've building a platform that helps
students compare clubs through
clear, structured, and trustworthy
information, so they can make
decisions with more confidence.

OUR GOAL

Our goal is to help more
students find clubs that
genuinely fit them.

92% of students said unclear or insufficient club information is a major barrier to joining.
